As Citizens WE OWN THE AIRWAVES. We expect to have FULL FREEDOM for our XM Satellite broadcasts and that includes weather and traffic reports. Other broadcast businesses have a sweetheart deal in No-Cost use of our airwaves if they follow the FCC guidelines. I am STRONGLY OPPOSED to permitting commercial broadcast lobbyists the political clout to restrict the XM content/service to its millions of listeners. I expect my Arizona representatives to PROTECT my citizen listening rights and to say a resounding NO to any efforts to limit the XM services available to its listeners. Dr. Sonnie Stevens, Scottsdale, AZ
